

## About Me

I am a passionate and hardworking Software Engineer | Backend Engineer (Node JS). I am a highly motivated and self-directed individual with a strong work ethic. I am also a team player and enjoy collaborating with others to solve complex problems. I am always eager to learn and implement the latest technologies. I am also preparing myself for AWS Associate Developer Certification.

## Expertise

- JavaScript
- React Js
- Node Js
- MongoDb
- Express Js
- TypeScript
- Next Js
- React Native

## Language

- English
- Urdu

# HASEEB TARIQ

## FullStack Developer

### Experience

#### Working as Freelancer (2023 to So- On)

Currently, I am working remotely on different freelance projects.

- Nano/Micro-Services development using Amazon Web Services, Node JS
- Web application backend development using Node JS, Nest JS, Express JS, Typescript
- Web application frontend development using React JS, Material UI, Typescript
- Project management using Agile Framework, JIRA
- Database management using MongoDB

### Certification

#### Earned certifications in Full-Stack Development from following Platforms

Certifications	Issuing Organization	Certifications
MERN Back-End (Node, Express, MongoDB, React)	Udemy	August - 2023
Front-End (HTML, CSS, JavaScript, React-Redux)	KG-Coding	May - 2023
Front-End (HTML, CSS, JavaScript)	SoloLearn	March - 2023

### Projects

#### E-commerce:

Designed and implemented a full-stack e-commerce platform utilizing the MERN stack (MongoDB, Express.js, React, Node.js). Features include user authentication, product catalog and shopping cart.

#### Quick-Bites:

Developed a food delivery application using the MERN stack (MongoDB, Express.js, React, Node.js). Utilized Context API and useContext for effective data sharing and global state management across the application. Utilized MongoDB Atlas as the database for storing and retrieving application data, ensuring scalability and reliability

#### Tic-Tac-Toe:

Developed a classic Tic-Tac-Toe game using React, JavaScript, and CSS. Includes a user-friendly interface and game logic for two players.

#### ToDo App:

Created a user-friendly to-do list application using JavaScript and CSS. Features include adding, editing and deleting tasks, with options to mark tasks as complete.
